# Solar energy mono 310 master self-consumption solar panel kit

**Product price:**

**€499.00 tax included**

**Product features:**

Operation: Solar

Voltage in Volts: 230 V

Frequency: 50 hz

Length in cm:

Width in cm: 110

Height in cm:

Dimensions (L x W x H): 165\*100\*60

Weight in kg: 35

Colour: black

Guarantee in years: 2

**Product attributes:**

**Product codes:**

Reference: 65027

EAN13:

3770020724046

UPC: -

## Product short description:

Your house consumes electricity even when you are not there. A kit will produce on average 300 kWh per year, which is the consumption of a fridge, an internet box and a TV on standby. Save money by covering a part of your passive consumption with an equipment that works thanks to the sun!
